Continuation of 3. NOTE: The amended claims require a new search and consideration because they now encompass any cell type that meets the limitations of the claims.

Continuation of 11. does NOT place the application in condition for allowance because: The claims remain as in the final office action mailed May 3, 2005. Any arguments address the nonentered claims will not be addressed. All rejections in the fimal office action remain of record. The references in the specification to reduced serum being 5%, and the commercially available media being 5% does not overcome the rejection. At no place does the specification state clearly what is encompassed by "reduced" serum, and all arguments point only to 5% being applicant's meaning of "reduced" serum. Applicant states that the references cited in the rejections under 35 U.S.C. § 102 do not show each limitation of the claim. However, these arguments are directed to the nonentered claims and thus are not addressed.
